

IN THE SPECIFICATION:

Please amend the paragraph beginning at page 1, line 2 as follows:

-- The present invention relates to a Digital Video Disk (DVD) ~~DVD~~ player apparatus capable of mounting a television set thereon.--

Please amend the paragraph beginning at page 1, line 5 as follows:

-- A first conventional technique is shown in Figs. 3 and 4. This apparatus is comprised of a pair of first supporting plates 102 which are respectively hinged to both sides of the bottom surface of a television set 101 and are capable of rotating between an upright position and a folded position; a pair of second supporting plates 105 which are hinged thereto in a direction perpendicular to the hinging direction of the first supporting plates 102 and capable of rotating between two positions of an upright position and a folded position; and fixing means for hanging and fixing the second supporting plates 105 respectively to the first supporting plates 102 at the upright positions. A Video Tape Recorder (VTR) ~~VTR~~ 108 is accommodated in a space formed by both supporting plates 102 and 105 at the upright positions of the first and second supporting plates 102 and 105, and the television set 101 is supported by the first supporting plates 102 at the folded positions. (Refer to JP-UM-A-62-188875, for example.)--
